## A Creeping Death.

Deadly poison creeps up towards the  
throat, causing death. J. E. Stearns,  
of Plains, Minn., writes that a friend  
of his had injured his head, which  
led up like blood poisoning. Buckle's  
Arnica Salve drew out the poison,  
healed the wound, and saved his life.

Death was fast approaching," writes  
John E. Fernandez, of Tampa, Fla.,  
who has fought a race with death,  
a race of liver trouble and heart  
disease which had robbed me of sleep  
of all interest in life. I had tried  
of all different doctors and several med-  
icines, but not a benefit until I began  
taking Electric Bitters. So wonderful  
their effect that in three days I  
was a new man, and today I am  
all my troubles." Guaranteed  
Johnson's Pharmacy; price 50c.

## Saved by Dynamite.

A flaming city is saved by  
dynamite. A space that the fire can't  
reach. Sometimes a cough hangs on  
you feel as if nothing but dynamite  
could cure it. Z.T. Gray, of Al-  
abama, writes: "My wife had a  
severe cough, which kept her  
up at night. Two physicians could  
do nothing; so she took Dr. King's  
Discovery for Consumption,  
and colds, which eased her  
and she had her sleep, and finally  
was cured. Dr. King's Discovery  
is the best medicine for coughs  
and colds."

# FIGHT TO THE DEATH.

## Two Killed and a Deputy Sheriff Wounded.

About 9 o'clock last night a  
tragedy occurred at the McNabb  
farm, three miles this side of Biggers,  
Ark., and about one mile and a half from the John-  
son ferry on Current river, in  
which two men were killed and  
an officer of the law badly  
wounded.

For some time past farmers in  
that vicinity have been missing cot-  
ton from their pens, and sus-  
picion rested on certain parties  
at Success, Ark. The sheriff of  
Randolph county was notified  
and a deputy was detailed to  
look the matter up. Plans were  
laid to watch the suspected parties,  
and yesterday Ed. Dennis,  
George Shifley and John Jones,  
of Success, drove over to Reno  
and remained until dark, when  
they got a bottle of whiskey and  
started ostensibly for home. Go-  
ing to the McNabb place they  
went to a cotton pen and began  
to load their wagon with cotton.  
Deputy Sheriff Jim Wisener,  
with two or three others, includ-  
ing Marshal Thompson of Big-  
gers, had spotted and followed  
the men and came upon them at  
the cotton pen. The deputy  
sheriff called upon them to sur-  
render and their reply was to  
open fire on the posse with a re-  
volver and shotguns. The offi-  
cers returned the fire and a regu-  
lar battle occurred just as the  
moon came up. Wisener was  
shot at first fire in the jaw, the  
wound being at the base of the  
ear, and was hit in two or three  
other places. When he fell he  
gave his pistol to Thompson and  
told him to "Get them." The  
officers fired with deadly intent  
and Dennis and Shifley were  
both killed outright and Jones  
had his clothes shot full of holes,  
at least he appeared at his house  
at Success early this morning  
and that was his condition, he  
having escaped from the fight  
uninjured. Twenty-eight shot  
were fired in all by the officers  
and the cotton thieves. The  
news of this battle came to the  
DEMOCRAT at noon to-day.

was here this week attending court.

Pitman last Friday evening on a visit.

Nook neighborhood, was in town this  
week attending court and transacting  
business.

has about recovered from his recent  
sick spell.

relatives, left for her home at Allen-  
ville last Sunday.

has been in California for the past few  
months, returned to Ripley county, ar-  
riving last Monday.

have returned from their trip by water  
to Heber. They report having had a  
fine time on the trip down.

was here this week, and expects to move  
his family there. He says the Doni-  
phan colony is getting along nicely  
there.

# THEY MAKE THE DEAL

## And Will Now Build a Mill at Heber.

From the Jacksonian of last week,  
published at Heber, Arkansas, we get  
the following item, and as this pur-  
chase settles the matter of their new  
location, the company will now go  
ahead and build a big mill at that  
place:  
"One of the most important events to  
our county which has ever transpired,  
has taken place since our last issue in  
the purchase by the Doniphan Lumber  
company of the entire timber interest  
in the county of S. H. Fullerton,  
amounting to 35,000 acres of pine  
lands. Several of the officials of the  
Doniphan company have been here this  
week assisting in making the transfer.  
We understand that the consideration  
of the transaction amounted to \$245,000.  
It is now evident that these people will  
soon move their mill to this county,  
which means the employment of sev-  
eral hundred laborers. We can assure  
them that they will receive a hearty  
welcome."

## Good Grades.

The gentlemen who took the civil ser-  
vice examinations for rural free mail  
delivery routes made some very good  
grades. Allie Ferguson had the high-  
est grade and was listed as the first  
eligible, and has been appointed as the  
delivery clerk for R. F. D. route No. 1  
in this county, the delivery going into  
effect on December 1st. next. The  
grades made by those examined were as  
follows:

Allie Ferguson, 99,  
Alphonso Paul, 96 3-4,  
W. N. Trigg, 96 1-2,  
John Johnston, 94 1-2,  
S. W. Quick, 88.

Messrs. Gomer and Crist have not yet  
reported their grades, but as Mr. Fer-  
guson has been appointed they evidently  
did not get higher rating.

Mountain Industrial Exhibit Car will

day, and Tuesday morning. Any one

# Constant Thirst and Headache

Creeping sensation, bone-racking pains,  
a feeling of weight about the short ribs,  
depression, with creeping pains in the  
stomach, indicate that malaria has got  
you again. Then you should remember  
Dr. Armistead's Improved Ague Tonic  
the old reliable cure for chills and fever.

## DR. R. A. ARMISTEAD'S (Improved) AGUE TONIC

If taken as directed will positively cure any case of ague or chills. While destroying  
the malarial poison it fortifies and strengthens the entire system, tones up the nerves,  
enriches the blood, stimulates the circulation. There is positively no substitute  
for Dr. Armistead's Improved Ague Tonic. A sure preventative if taken in time.

This old favorite prescription contains no poisonous drugs, and may be given freely  
and in large doses if required. Sold by all leading druggists.

# .....SCHOOL NOTES.....

## HIGH SCHOOL NOTES.

Mr. C. J. Cope enters the Freshman  
class this week.

Mr. Elmore has changed the labora-  
tory to Mrs. Hudson's room.

The Sophomore class made 100 per  
cent in attendance last week.

What other Senior class in Southeast  
Missouri can show 100 per cent in at-  
tendance for the first nine weeks of  
school?

Professor Eliff, high school exam-  
iner for the University of Missouri, was  
with us last week. He passed some  
very complimentary remarks on the  
high school, on account of which the  
pupils felt very proud. He made a  
very helpful talk to pupils.

## GENERAL COMMENT.

The school extends a standing invita-  
tion to its friends to come and inspect  
the work being done.

"The patrons and pupils of Doni-  
phan," said Professor Eliff, "are to be  
congratulated on their fine school spirit  
and interest."

We wish to make this request of  
parents, namely: That they permit  
their children to come to school every  
day that it is possible for them to come.

## Ripley County Schools.

[Collected and Edited by E. T. Foard, County  
School Commissioner.]

Mr. Ira Tucker has closed his school  
in the Cuba district.

J. A. Foard resumed work in the Oak  
Grove school this week, a church be-  
ing fitted up for the use of the school.

Miss Clara Sullivan, of Lone Star  
school, is very much pleased with the  
course of study. She is having the lit-  
tle folks study nature.

Very few of the teachers are writing  
anything for this column. I should  
like very much to hear something  
from each school in the county.

The examination questions for the  
second quarter will be sent out this  
week. If any teacher should fail to re-  
ceive a copy drop me a postal card and  
it will be sent at once.

Mr. Richard Carrico has resumed  
work in the Bellview district after a  
few weeks vacation. His enrollment  
for the first month was 70, with an  
average attendance of 46. The average  
attendance for the second and third  
months was 42 and 39 respectively.  
This month starts off with 16. The  
people have not returned from the bot-  
toms yet. He likes the quarterly ex-  
amination questions. He says: "I en-  
dorse Miss Scott's method of teaching  
beginners to read. Also, Mr. Hill's  
method of teaching numbers."

The teachers who have introduced  
the study of agriculture into their  
schools have reported it a success from  
the beginning, but so far as I have  
learned Mr. Proffer, of the Doniphan  
school, is the first to attempt garden  
work. He has laid off a small garden  
into regular plots, which are numbered,  
and a record kept of each. The eighth  
grade pupils are doing the work, and  
they like it so well that they often  
spend the recess periods at work.  
They have planted strawberries, corn,  
wheat and grasses, and have certain  
plots laid off and reserved for blue  
grass, flowers, and other crops to be  
planted next spring. I should like to  
hear what other teachers are doing.

## Brandy for Sickness.

The president of the Baltimore Med-  
ical College, who has thoroughly tested  
Speer's wines and brandy, says:  
"Speer's Climax Brandy is a pure  
and valuable article in all cases of dis-  
ease in which a reliable stimulant is re-  
quired. I regard it superior to most  
French brandies."
